Dear TE Connectivity,

I just wanted to share with you how much our students enjoyed visiting with author Stephen Kozan from "Student Author Movement." He visited our school the morning of Monday, December 6th, 2021 and our students were thoroughly engaged the entire time.

He has a great way of getting students to open up and have fun in a positive environment. From the 'rock, paper, scissors' challenges, and having one of the teachers on campus draw the 'Black Tiphantillo" (a mythical creature of great proportions), to having the students write their very own 'Flash Fiction' piece; all areas were enjoyed by those who attended.

This was an amazing opportunity for our students. We have not had an author visit our campus in many years and we would not have been able to provide this experience without the grant money secured for this visit. Thank you for helping our students learn about the real-world book writing process in a fun and engaging way. This was an experience that they will never forget.

All the best,

Christine Moschetti
