Dear Mr. Kozan,

I'm writing to thank you for your amazing visit at Highland Elementary and Junior-Senior High Schools. It was so much more exciting and engaging than we ever could have hoped.

We all know middle school/junior high can be a tough age; nothing seems to please a large group of students in this age group. Yet, you managed to captivate this group. Several students asked how many years they get to participate in your assembly and hoped that they could continue clear through high school.

Your flash fiction contest generated so much excitement. Students were sharing their writing after you left. It was rewarding for students to see themselves as writers and ponder the idea that they could be authors. I truly am hopeful that we will be able to have you back!

So again, thank you for just connecting with the students, for helping them find their writing voices, for the great experience.

Sincerely,

Traci Mosby
